

STRIKING PEAK
ROOF STRUCTURES

Feature Structures

An aesthetically pleasing family of peaked roof structures ideal for parties, receptions, retail units or entrance points. This modular structure allows units to be connected together to form a watertight join, in any number of configurations.

These modular structures are supplied with soft PVC walls which can be replaced with double entrance doors, luxurious glazing units and hard PVC wall panels. Available with an integral cassette flooring system.

Each structure conforms to British, European and American standards for stability and fire safety and are available in:

- 3m x 3m
- 4m x 4m
- 5m x 5m
- 6m x 6m
- pentagonal: 65m² (5m sides)
- hexagonal: 100m² (6m sides)
